A Swell Affair

On last Monday evening. the Woman's Improvement Club gave a swell ball in Union Hall. This affair was well worth attending and one could readily see the support given these ladies in all their endeavours. There were about 120 present and from all appearances all seemed to have an excellent time. The ladies appeared in evening dress and all the colors of the rainbow were seen fliting here and there. To describe the costumes is beyond us, but suffice to say we have not seen such a swell lot of costumes in many a day. Among the gentlemen, however, we could see only a few of the regulation evening full dress suits.

The hall was very prettily and appropriately decorated with ferns, palm leaves and flags, over which Old Glory predominated. A little to one side of the stage we noted the banner of the Woman's Club and in big gold letters read "Onward," the motto apparently, of the club and appropriate to their calling.

Taking everything into consideration the affair is one that will be long remembered by those present and cherished in their memory.

Mine Host Keonig served a light repast at midnight and then the dancers continued their merriment until about 2 A.M., departing only when the musicians put away their instruments.

The ladies will give another dance in the near future and will serve their own supper. This, no doubt, will be as swell a dance as the one above mentioned and will be well attended. Details will appear later.

Dillon's Beach

R. J. Dowdell and wife, who have deen rusticating at Dillon's Beach for the past four weeks returned home the latter part of last week. Mr. Dowdell informs us there have been large flocks of geese and ducks there, and quail and rabbits are plentiful. Fishing has not been up to the standard until of late and those there now are making large catches. He also states that a large number of moonstones, agates and other valuable stones are being found. A number of human bones have also been found and the supposition is they are the bones of the two boys who were drowned there last fall. Mr. Dowdell emphasized the fact that the game of 500 is still in vogue there, and we can say with authority that he is a lover of the game.

He also states that John W. Keegan, proprietor of the Keegan Hotel, is making extensive improvements on his hotel.

Must be a fine place to go from all the reports we hear.

Motor-cars Coming

It is rumored that beginning March 1st. the Southern Pacific R. R. Co. will run motor-cars on their line between Vallejo and Santa Rosa. We hope the report is true but we doubt it. A railroad company has to order an improvment and contermand the order about fifty times before they put the deal through. There is no question about it being a paying venture and would attract a large number of people to Sonoma Valley.

What we need most though are motor-cars to be run between Sausalito and Glen Ellen over the Northwestern Pacific hourly, and, in our estimation, this will be done within a matter of a year or two.

When our Board of Trade comes to life again this matter can be brought forcibly to the minds of the railroad authorities.

A. E. Sondag, the Tailor

A. E. Sondag, the tailor, formerly of Sonoma, was in the valley this week taking orders for men's tailor-made suits. Mr. Sondag and family are temporarily located in Fruitvale, but the former expects to get permanent quarters for his tailoring establishment in the metropolis, in the near future. For many years he has enjoyed a liberal patronage from this valley and his work always gives satisfaction. Mr. Sondag will make regular weekly trips to the valley and solicits a share of the trade. Give him a trial orde for a good suit and you'll be satisfied. ctf

Why the Viticultural Bill Must Pass

There are many important reasons why the viticultural industry of California should receive recognition from the State Legislature.

1. The grape and wine industry of California represent an investment of over $100,000,000 and are capable of a very great expansion.

2. California is practically the only State in the Union where these industries can be carried on profitably on a large scale.

3. California is extremely well adapted to these industries, but our conditions differ so much from those of Europe and other grape-growing regions that original investigation is urgently and constantly needed in order that we may make full use of our advantages and keep abreast of competing regions.

4. In spite of our manifest advantages, our crops are smaller than those of much less favored regions. The average crop of our vineyard in 1906 was only about 2.14 tons per acre. That of the province of Herault, in the South of France, for the same year was 4.70 tons per acre.

5. France, besides an Agricultural Institute in Paris, two National Schools of Agriculture and a large number of farms and practical schools whose chief subject is Viticultural, has a Viticultural and Enological Experiment Station in every important grape-growing region. Similar institutions exist in Germany, Italy and Australia.

6. No State in the Union does or can support such a station but California.

7. Much loss occurs to the grape growers of the State by the use of antiquated or unsuitable methods of planting, pruning, cultivation, grafting and wine-making, and by a lack of knowlege of the best varieties of grapes and resistant stocks for various soils and climatic conditions, of the cheapest and most effective methods of the control of vine diseases, and of the handling of grape products and by products.

8. Much could be done to lessen this loss, and to keep us at the head of the industry by a well-supported viticultural department working in conjunction with the University Experiment Station. Such a department to be effective must receive sufficient and, above all, regular support in the way of State appropriations.

9. Since the Viticultural Commission ceased to exist in 1894 the only State appropriations for Viticultural work have been:

1895	$ 2,500
1903	3,000
1905	10,000
	$15,500

or about $1,200 per year.

This is not only very inadequate in amount but so irregular that much of its value is impaired.

10. The work of the Viticultural Department of the University of California done under the provisions of the bills making the above appropriations is exemplified by the publications issued during the period. These consist of twenty-two bulletins, three circulars and one report, covering many of the most important phases of the industry. Many equally important phases have scarcely been touched and new problems arise every year.

11. On the proper solution of these problems the future of the industry depends. Some of them can be solved easily and quickly. Many require long, careful and patient investigation. It is the latter especially for which there is urgent nsed of immediate and continued work.

Problems of adaptation of varieties, longevity of grafts, soil fertility, ultimate results of pruning systems, in fact most of the important problems that confront the vine-grower, should be attacked without de ay. Their final solution may be far in the future, but knowledge will be gained and practice improved each year, and the sooner we commence work the sooner we will get results and the more continuously this work is prosecuted the fuller and more valuable those results will be.

GRAPE GROWER'S OF CALIFORNIA.

Business Sold

On last Friday evening a deal was consumated whereby August Clerici sold his news stand and ice cream parlors to W. A. Werner, of Shellville, who will take possession March 1st.

We regret to say that Mr. and Mrs. Clerici thinks of leaving our midst and move to Crockett, where he contemplates going into the hotel business. Mr. Clerici has conducted the news stand for several years and made many friends who regret his leaving Sonoma.

Mr. Werner is well known throughout the valley, having been agent for the N. W. P. R'y at Shellville for a matter of five years until recently, and one and all welcome him to our city and wish himself and family the best success possible.

The many friends of Mr. and Mrs. Werner will be pleased to learn that they will reside in the residence now occupied by Mr. Clerici on Napa Street.

Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrah Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price, 75c. per bottle

Take Hall's Family Pills for constipation.

A bill has been introduced in the house to require railroads to water stock at all loading stations. Heretofore it has been considered sufficient to water stock at the directors' meetings in New York.

Misery in Stomach

Why not start now—today, and forever rid yourself of stomach trouble and indigestion? A dieted stomach gets the blues and grumbles. Give it a good eat, then take Pape's Diapepsin to start the digestive juices working. There will be no dyspepsia or belching of Gas or eructations of undigested food; no feeling like a lump of lead in the stomach or heartburn, sick headache or Dizziness, and your food will not ferment and poison your breath with nauseous odors.

Pape's Diapepsin costs only 50 cents for a large case at any drug store here, and will relieve the most obstinate case of Indigestion and Upset Stomach in five minutes.

There is nothing else better to take Gas from Stomach and cleanse the stomach and intestines and besides, one triangule will digest and prepare for assimilation into the blood all your food the same as a sound, healthy stomach would do it.

When Diapepsin works your stomach rests—gets itself in order, cleans up—and then you feel like eating when you come to the table, and what you eat will do you good.

Absolute relief from all stomach misery is waiting for you as soon as you decide to begin taking Diapepsin. Tell your druggist that you want Pape's Diapepsin, because you want to be thoroughly cured of Indigestion.

African hunts and magazine writing will not be necessary as the occupations of ex-Presidents of the United States if a bill introduced by Representative Volstead (Minnesota) be enacted. This measure provides a pension of $12,000 annually for every President after he leaves the White House. No duties will be required of the retired chief executive, but if he should be again elected President his pension would cease during his term of office.

DeWitt's Carbonized Witch Hazel Salve is very good for chapped hands, cuts, scratches, burns or bruises, for it penetrates the skin and it heals quickly, but is especially good for piles. Sold here by all druggists.

Contribute Articles

We want the chicken raisers throughout our valley to write their experiences in their line, and mail or bring them to the EXPOSITOR office. We will publish these articles from time to time and, no doubt, they will be very beneficial to all. They will show the mistakes of others and the way to avoid them. Tell your experiences as you would relate them to a friend and tell facts, not presumptions. Make your articles from 200 to 500 words in length.

We would also like articles from the hatcheries, giving us all the pointers they can in their part in the rasing of chicks. We want to learn all we can about the chicken industry and want to help teach others.

Still Growing

Do you realize that Sonoma is growing some. Despite the recent storms building has been carried forward with rapidity. There are now in the course of construction a large hotel, club houses and residences—about 10 in all. Of course we're growing, and will continue to grow. Can't be helped. Sonoma valley is a good place to live in and many people realize the fact.

The Fleet's Home-coming

The American battleship fleet was given a great reception Monday, after its cruise around the world, on which it traveled fourteen months. Although a few of the leading eastern newspapers had violently opposed the President's action in ordering the voyage of the fleet, not much criticism of the order is now heard. Most of the objections to it were groundless—as for example, the enormous cost, said to total about twenty million dollars. But of course much of this expense was for food for the men, and they would have cost as much for food at home as they did abroad. More coal was burned than would have been burned if the ships had been laid up. But ships of that character suffer from being laid up, and the crews suffer still more then the ships. Constant activity and constant drill are most important factors in keeping a navy in trim. Fleet maneuvers cannot be studied when only part of a fleet is present; and fleet maneuvers cannot be made in time of war unless they have been studied and practiced in time of peace. Although, it is probable that the trip around the world constituted about as good service as our battleships could have rendered within the year that they devoted to it.—Exchange

Judge Cheney Re-appointed

The people of Sonoma will be pleased to learn that the President of U. S. has re-appointed Judge J. M. Cheney postmaster in this city. Judge Cheney is a faithful, painstaking and accommodating officer and the people are to be congratulated on being able to secure his services as postmaster for another term of four years.

Making New Map

County Surveyor Winkler, and Co. Assessor Frank E. Dowd came down from the County seat yesterday morning for the purpose of running a few lines on Napa St. West. Mr. Winkler is making a new map of Sonoma about the plaza.

Convent School Celebrates

War Songs in two-part chorus; class recitations, in honor of our great Americans, Washington and Lincoln. Piano duetts, and solos as also violin duos with piano accompaniment, with the leading patriotic celebration, rendered by the convent pupils on last Friday. Limited space forbade the extending of invitations, yet the whole program was worthy of a large audience. The blackboards were ornamented quite artistically by the Misses Dal Poggetto, Pinelli, Laveroni and others, with color-crayon drawings of "Old Glory" "Lincoln's Log Cabin," "Flat Boat," etc., as well as with several of his beautilul mottoes, printed in Old English, and German, text. The Rev. Father Leahy who honored the occasion with his presence, made at its close, an inspiriting and patriotic address, laudatory, especially of Lincoln; his text being that great man's maxim "With malice toward none; with charity for all." If the young people who were present do not rise to, and act on, higher ideals, it will not be the fault of either Lincoln or the Rev. Pastor Father Leahy.

St. Patrick's Ball

At their last meeting held in Woodman Hall last Wednesday evening the Woman of Woodcraft decided they would give a St. Patrick's Ball on March 17th in Woodman Hall. This is the first dance the ladies of this order have ever given and they are laying their plans thoroughly and no doubt will have a large attendance. Tickets are now on sale, gentlemen, 25cts; ladies free. They are also laying plans for an elaborate banquet which will be served for the price of 25cts each. We can state from past experiences that these banquets are fine and filling, so should you attend go prepared for a good banquet.

A Runaway in Glen Ellen

There is nothing strikingly humorous in a runaway to the owner or driver of the vehicle but to the hidden observer it is laughable to note how quickly human beings can make use of their ability to hear, to see and to move in time of danger.

The little town of Glen Ellen was pleasantly basking in the sunlight of a bright morning when the unusual rumbling of a runaway was heard in the distance and dashing across the bridge at full speed, regardless of law or propriety, came the French Bakery wagon, of Sonoma, minus an owner, scattering bread and pastries to the four winds of heaven.

Pucci, who was leisurely strolling toward his home needed but one glance to convince him the safest place for him was on the other side of the fence and the skill and speed with which he attained that position seemed almost superhuman.

Bill Ping in excitement gaped open his mouth, leaving his long eared mules grazing along the public throughfare. Chickens, cats and dogs flew in all directions. Albert Miller's cook with frying pan and so forth; Genial Tom Monaham a baby in each arm.

The congenial and bald headed storekeepers, Hardman and Poppe, followed in the wake of the speeding bakery wagon, which came to a stop somewhere in the Mervyn grounds. Whether or not it collided with "Pat" himself thereby preventing a catastrophe we are unprepared to say. But a few minutes later the frightened baker resumed his way, happy in the recovery of his belongings, while the rustic country folks returned indoors to talk it over. FINIS.

New Pictures

Francisco Bescionni informs us he has received another lot of moving pictures and will exhibit them to night, Saturday and Sunday evening. The pictures this week are:

"Ingomar—The Barbarian." "The Legion of Narcissus," and "Rocco Times." The following illustrated songs will be rendered: "'Neath the Old Cherry Tree" and "Fly Away Birdie to Heaven."

Special exhibit Sunday afternoon at 2 o'clock.

A Bit of Ancient History

In glancing through a copy of the Nevada City Transcript, printed on Nebruary 15. 1863, just forty-six years ago, found the following interesting item:

"The people of Sonoma county are going to construct a railroad from near Petaluma to Santa Rosa, where it will be a long felt want."

In looking over the records we find that this "long felt" want was not filled until 1871, seven years after the Transcript item was published, when the first train was run up the Santa Rosa valley over the main [illegible] the old [illegible] system [illegible] Sebastopol Times [illegible]

Artists Visit Sonoma

Mr. and Mrs F. T. Raymond, sister and brother-in-law of Mr. and Mrs. Byers, were their guests at their home this week. This is their first meeting in four years, during which time they have toured the United States, Canada and Mexico. They are now on a fifteen weeks' tour of the Pacific coast for the Pantages circuit, after which they leave for Europe, where they begin a three months' run at the Wintergarten, Berlin, Germany. Mrs. Raymond is known professionally as Edith Raymond, America's Premier Wire Artist, and has the reputation of being the first and only lady in the world to accomplish the difficult feat of riding a bicycle also a unicycle on a slack wire. Mrs. Raymond will appear at Pantages' Empire Theatre, San Francisco, week of Feb. 28.

Special Meeting

Yesterday afternoon our county assessor, Frand E. Dowd, called a special meeting of the business men of our city for the purpose of re adjusting the assessments in Sonoma. Mr. Dowd had maps, past assessments, etc., on hand and it was found that a number of pieces of property were assessed at considerable less than they should have been.

It was suggested that a number of pieces of property assessed at so much per acre should be made to read so much per lot.

It was further decided that property from and including Duhring's store on First Street East along Napa street to and including Peter Yenni's property on First Street West should be assessed at $25 per front foot and corner lots at $30 per front foot. The remainder of the property surrounding the plaza to be assessed at $10 per front foot.

A New Business

In another column of this issue appears the announcement of W. H. Bridges, who intends opening a first-class harness and repair shop. He is well known in this valley, having lived in El Verano for the past four years, and is a man of ability and integrity, and one whom Sonoma will be glad to call one of our enterprising citizens, for we know him to be a hustler, and a man who has had a number of years experience in making and repairing harness. Mr. Bridges we welcome you and your family to our city.

Social in Parsonage

A Housewarming Social will be given in the New Parsonage of the Congregational Church on Friday evening, March 5th. A short business meeting of the Ladies Aid Society will be held at the same place at 7:30 P. M. sharp. All friends are cordially invited.

Well-Known People Wed

R Contorni, the well known proprietor of the Old City Bakery and Miss Augustine Barbarin, a popular heiress of this city, went to Santa Rosa yesterday morning and were quietly married.

After a briet honeymoon trip the happy young people will return to this city and take up their residence in the Barbarin building an First St. East.

Mr. and Mrs. Cantorni are wished much happiness by a wide circle of friends.

Since his boyhood days Attorney William F. Cowan has never made a more lively sprint than he did Tuesday morning. It seems that the little son of Chief of Police Rushmore clambered into a grocery delivery wagon, ane while he was sitting there started up the horse. The animal, a speedy one, started off at a lively rate. Mr. Cowan heard the youngster's screams, and he took after the horse at a lively pace. Enroute the legal vocal chords were used to attract the attention of others further down the street. William Hanson took in the situation and he and the lawyer shared the honors in stopping the horse and rescuing the frightened child.—Press-Democrat

Don't You Feel Well? Ache All Over?

Feverish? Feel as though your blood was hot? Cold feet? Backache? Those warning signals which indicate that "a bad cold" or a fever is coming on? Don't get discouraged, but go home. On the way, stop in any drug store and get Dr. Pierce's Golden Medical Discovery. When you get home, take a hot bath or a hot foot bath, go to bed, cover up warm—take a dose of the "Golden Medical Discovery," in the morning another dose, and you will feel better. You will not have to continue many doses before you are well. If you still persist in the use of Dr. Pierce's Golden Medical Discovery you will find improvement in your general constitution, appetite and blood—your liver will become active and throw off the poisons from the system.

Get as near to Nature's way as you can. There's a reason. Vegetable foods are usually good for the health. The human economy digests and assimilates them best. In disease, a remedy made up of Golden Seal root, Queen's root, Stone root, Black cherrybark, Mandrake root and Bloodroot, such as Doctor Pierce's Golden Medical Discovery, is positive yet safe, is assimilated in the stomach and taken up by the blood, therefore it is the most potent means which can be employed for the regaining of lost health.

Microbes snatch at us from every corner. They mean to kill or eat us if they can. They are formed by millions on everything we eat, drink and wear. The air is *alive* with them. Medical science has proven in the past few years that nearly every disease is a germ disease. Such disease germs enter into the blood in two ways, either through the lungs or stomach. If the blood is pure and rich, the liver and stomach in healthy, active condition, the germs of disease cannot find a resting place there to multiply. Diseases of the lungs, bronchitis and consumption, grip and pneumonia, are very apt to spread through a factory where there is much fine dust in the air. The lungs become irritated and the germs find a fertile field for growth. Extreme weakness, feelings of nervous exhaustion, coughs and colds are the warning signals which should be heeded. One should put the system in the very best possible condition right away. Rid your body of the poisons that are apt to accumulate and your system is ready to ward off the attack of the germs of disease. Doctor Pierce's Golden Medical Discovery makes *rich, red blood*—by increasing the red blood corpuscles. There is no alcohol in this great tonic to shrivel up the red blood corpuscles. An alterative extract, made only of native medicinal roots, it goes about its work in nature's way. Only good can come from its use, as it invigorates and tones the liver into proper action, and feeds the worn-out nerves, stomach and heart on pure blood.

"I am a firm believer in Dr. Pierce's Golden Medical Discovery," writes Joseph Napoleon Herbert, Chairman Board of Relief, of 233 St. Paul Street, Montreal, Quebec. "Find that it has been of practical value to a number of men in my employ. They are especially exposed to inclement weather, and often the colds contracted run into pneumonia, stomach trouble, or kidney and liver disease. However, since we have known of the value of 'Golden Medical Discovery,' there is much less sickness, as this medicine seems to keep the blood in a healthy, active condition, and to ward off colds and all other diseases. It is a very fine tonic for a run-down system. I am pleased to acknowledge its worth."

BAD HEADACHES generally arise from bad stomachs. Foul breath, bitter taste, coated tongue, sour eructations or belching of gas, are common symptoms though not all present in every case. To cure, take small doses, only one or two each day, of old Dr. Pierce's Pleasant Pellets, the Original Little Liver Pills, first put up by him over 40 years ago. One or two a laxative, three or four cathartic.

BREVITIES

The statement that the potato is king on account of recent floods which destroyed thousands of acres of this vegetable, is not only considered erroneous by well informed and conservative men in the island district, but they state that this cry is being used in order to take advantage of a raising market. Various men who are acquainted with island conditions state that the entire number of sacks of potatoes lost on account of the floods will not exceed 50,000. Two weeks ago potatoes could have been purchased for 60 cents a sack in the vicinity of Antioch while at present they bring $1 75. but the market is said to be weakening and it is the opinion of those who know that a a drop will take place shortly. The potato supply in the river section is not exhausted and it is said this will be shown just as soon as the river produces can secure barges to move their crops.

The material for the new federal building and postoffice in Santa Rosa is arriving. Two car loads of the famous Bedford stone, from Bedford, Indiana, are on the way having started on February 8th.

This is the most dangerous time of the year to take cold, and it is the hardest time to cure it. If you should take a cold, a few doses of Kennedy's Laxative Cough Syrup will act very promptly. Its laxative principle cures the cold by driving it from the system by a gentle but natural action of the bowels. Children especially like Kennedy's Laxative Cough Syrup, as it tastes so good, nearly like maple sugar. It is sold by all druggists.

Sour stomach makes sour people. It makes your disposition sour—you become disliked because of your sour nature. Every bit of it can be stopped just as soon as you take something to digest the food you eat. Sour stomach is caused by too much acid arising from undigested food. Last week Leslie Andrews killed a large eagle with a rifle near Mecham station. The bird measured six feet from tip to tip and had monstrous claws. For several weeks past the eagle has killed four lambs a day, and the stock raisers of the neighborhood are glad to know the bird has been slain.

The Chinese have a proverb that we cannot prevent the birds from flying over our heads, but we can keep them from building nests in our hair. In the same way it may not be possible to prevent the visitations of gloomy moods so long as everyone is subject to the ills of flesh and spirit; but all can put up a stiff fight to keep them from taking possession. The best way to fight the "blues" is instant action. Put mind or hand to something at once.

The latest estimates of the amount of work necessary to complete the Panama canal shows the work is over one-third finished. The total excavation required when the Americans assumed control was 174,666,595 cubic yards, of which 62, 751,924 cubic yards has been taken out up to the end of January, leaving 111,904,671 cubic yards still to be removed. Under the present plan there will be necessary 29, 387,000 cubic yards of filling for locks and dams and 5,025,400 cubic yards of concrete.

For that Terrible Itching

Eczema, tetter and salt rheum keep their victoms in perpetual torment. The application of Chamberlain's Salve will instantly allay this itching, and many cases have been cured by its use. For sale by L. S. Simmons.

It has just been discovered that the crack in Liberty bell has extended seventeen inches beyond its original length. This has resulted in another movement to prevent the removal of the valued relic to the Pacific Coast for exhibition purposes. The new crack, which is scarcely preceptible, extends almost to the top of the bell and a sudden jolt may cause it to split in two.

Was Mixed Often

Some remarkable stories are being told about town and among the country people coming in of this simple home-made mixture curing Rheumatism and Kidney trouble. Here is the recipe and directions for taking: Mix by shaking well in a bottle one-half ounce Fluid Extract of Dandalion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Take as a dose one teaspoonful after meals and at bedtime

No change need be made in your usual diet, but drink plenty of water.

This mixture has a peculiar tonic effect upon the kidneys; cleansing the clogged-up pores of the eliminative tissues, forcing the kidneys to sift and strain from the blood the uric acid and other poisonous waste matter, overcoming Rheumatism, Bladder and Urinary troubles in a short while.

A druggist here who has had hundreds of calls for these ingredients since the first announcement in the newspapers last October stated that the people who once try it "swear by it," especially those who have Urinary and Kidney trouble and suffer with Rheumatism.

All druggists in this neighborhood say they can supply the ingredients, which are easily mixed at home. There is said to be no better blood-cleansing agent or tonic known and certainly none more harmless or simple to use.

Many people ascribe the numerous earthquakes to the recent bumping received by the republican party.

Many Sleepless Nights Owing to a Presistant Cough. Relief found at last

"For several winters past my wife has been troubled with a most presistant and disagreeable cough, which inveriably extended over a period of several weeks and caused her many sleepless nights," writes Will J. Hayner, editor of the Burley Colo., Bulletin. "Various remedies were tried, each year, with no beneficial results n November last the cough again put in an appearance and my wife, acting on the suggestion of a friend, purchased a bottle of Chamberlain's Cough Remedy. The result was, indeed, marvelous. After three doses the cough entirely disappeared and has not manifested self since." This remedy is for sale by L. S. Simmons.

What To Forget

If you want to increase your happiness and prolong your life, forget your neighbor's faults. Forget all the slander you ever heard. Forget the fault finding, and only remember the good points which make you fond of them. Forget all the personal quarrels or histories you may have heard by accident, and which, if repeated, would seem a thousand times worse than they are. Blot out, as far as possible, all the disagreeableness of life; they will only grow longer when you remember them, and the constant thought of the acts of meaness, or worse still, malice, will only tend to make you more familiar with them. Obliterate everything disagreeable from yesterday, start out with a clean sheet today, and write upon it for sweet memory's sake only those things which are lovely and loveable.

Season Enthroned

Because meats are so tasty they are consumed in great excess. This leads to stomach troubles biliousness and constipation. Revise your diet, let reason and not a pampered appetite control, then take a few doses of Chamberlain's Stomach and Liver Tablets, and you will soon be well again. Try it. For sale at L. S. Simmons's drug store. Samples free.

Jacob Riis, who is in Chicago to deliver an address, declares that "the city is experiencing a crying need for more neighborliness." "More of that neighborly feeling," he said, "and there will be fewer tenements filled with baby killing rooms. In the old days all knew one another and there was no one so base as to see his neighbor suffer without extending a helping hand. Nowdays who knows what his next door neighbor is doing or in what condition he is?"
